

Tree Prices for 2007

Please note that we have very few Virginia Pine or Red Cedar available this year for sale. Also, most of our selection this year is concentrated in the small to medium trees. Drought conditions during the past several years are partly responsible for our lower than normal selection and size of trees.

In an effort to sell trees at a fair price for all sizes, we use a sliding scale based on 1/2 foot increments. The price is determined by the type of tree and the height using the nearest half foot that it is at or above. Example: a Leyland Cypress that is measured between 6 and 6 1/2 feet would be considered a 6 foot tree and would cost \$25.50.

Final measurement will be taken at checkout.

**Note: some sizes shown are not available this year. If you have need for a tree over 7ft please contact us before coming out or inquire when you arrive.*

***Live Container trees (Leyland and Arizona Cypress) are individually priced. These trees are in the 5 ft to 7 ft range (including pot height).*

<u>Height</u>	<u>Leyland Cypress</u>	<u>Arizona Cypress (new)</u>
4	\$ 15.50	\$16.50
4 ½	17.25	18.25
5	19.50	20.50
5 ½	22.00	23.00
6	25.50	26.50
6 ½	28.00	29.00
7	31.25	32.25
7 ½	34.00	35.50
8	37.50	39.50

Please recycle paper copies of this price list. We welcome turning them back in at checkout when you leave. Thanks!
